

dredges, machinery, water pumps, or explosives.

The use of any suction dredge or water pump (power sluicing) is allowed with a Special Recreation Permit issued by the Bureau of Land Management, Folsom Resource Area. Using machinery to remove rock and soil above the water level of a river or stream, commonly referred to as "highbanking", is not allowed. Permits will not be issued for areas designated wild rivers under the Wild and Scenic Rivers Act.

Any persons camping in areas open to camping must comply with the established 14 day camping limit published in the **Federal Register** on October 26, 1983. Exceptions to this established rule will be only with a Special Recreation Permit authorizing the holder to camp longer than 14 days.

Persons holding a Special Recreation Use Permit who fail to follow the stipulations shall have the permit revoked by the Authorized Officer.

No person shall:

1. Operate or possess a suction dredge or water pump (power sluice) without a valid Special Recreation Permit. The definition of possess includes having a suction dredge in the water or on the shore adjacent to water.

2. Remove soil or rock above the water level with any machinery (commonly referred to as "highbanking").

3. Camp over the established 14-day limit without having a valid Special Recreation Use Permit.

4. Operate or possess a suction dredge or water pump (power sluice) in violation of California permit requirements or California established seasons. Supplemental Rule Number 4 shall apply to all public lands administered by the Folsom Resource Area Office.

Any person who fails to comply with these Supplemental Rules may be subject to fines up to \$100,000 and/or imprisonment not to exceed 12 months. These penalties are specified by Title 43 of the United States Code, section 303 and Title 18 of the United States Code, section 3623.

**SUPPLEMENTARY INFORMATION:** Public Lands withdrawn from mineral entry

are currently unavailable for recreational mineral hunting by the public. The recreational gold hunter who wishes to suction dredge or gold pan must now locate an area open for mineral entry that is free from claims. This process is very cumbersome to the person who wishes to engage in this recreational activity. Opening some of the withdrawn lands to the recreational gold hunter will greatly increase the opportunities.

The public has expressed a need for places to gold pan and suction dredge without the burden of mining claims. This Supplemental Rule will make available rivers for the recreational gold hunter.

Authority for Supplemental Rules are contained in Title 43 Code of Federal Regulations, subpart 8364.1.
